Florida Society of Clinical Oncology Welcomes You

Rapid Integration Training

The mission of the Rapid Integration Course is to offer a course that is relevant, practical and patient centered that could be used as a durable and long term project that will positively impact the speed in which entry level oncology physician assistants and nurse practitioners integrate into the oncology practice setting.

Chairman

Winston Tan, MD, FACP
Associate Professor of Medicine
Vice Chair Hematology/Oncology for Education
Program Director Hematology/Oncology Fellowship
Chair Cancer Survivorship Program
Mayo Clinic Florida

BIOGRAPHY: Dr. Winston Tan is focused on translating basic science principles into tangible treatment options for patients with cancer. He is interested in the development of novel targets of therapy including immunotherapy that would lead to less toxic treatments for cancer. These treatments would also be able to lead to meaningful improvement of quality of life, prolongation of the time to cancer progression and hopefully improved survival. Dr. Tan’s professional highlights are his leadership roles as Vice Chair of Hematology/Oncology Mayo Clinic Florida for Education, Associate Chair for Faculty Faulty Development, Department of Medicine, Mayo Clinic Florida, Fellowship Program Director Hematology/Oncology, Mayo Clinic Florida, Board Member, Chair of the Membership Committee, and member of Program Committee in the Florida Society of Clinical Oncology. He is a Fellow of the American College of Physicians, and Member Survivorship Committee of the American Society of Clinical Oncology. Dr. Tan is a passionate, empowering and focused cancer educator.

Vice Chairman

Terry Gruchow, PA-C, MHS
Moffitt Cancer Center

BIOGRAPHY: Terry Gruchow joined Moffitt Cancer Center as an Advanced Practice Professional with Department of Internal and Hospital Medicine in 2006. A graduate of the University of Wisconsin and Lock Haven University (Pa), his clinical responsibilities include the Moffitt Direct Referral Center (the Center’s Urgent Care clinic) and the Inpatient Wards. His other responsibilities include Administrator of the Moffitt PA Student Mentoring Program and the Moffitt Student Shadowing Program. He is Adjunct Faculty at Barry University and South University. A member of The American Academy of Physician Assistants, Association of Physician Assistants in Oncology and Society of Hospital Medicine, he is the West Central Region Director for the Florida Academy of Physician Assistants. Terry is also on the Moffitt APP Council, serves as the PA Liaison to the FLASCO Board of Directors and is a member of the South University PA Program Advisory Board.
RAPID INTEGRATION COURSE

PROGRAM PLANNING TEAM

Winston Tan, MD, FACP  
Mayo Clinic Florida  
Chairman

Terry Gruchow, PA-C, MHS  
Moffitt Cancer Center  
Vice-Chairman

Seth Berkowitz, LCSW, CCLS  
The Leukemia & Lymphoma Society

Chakra Chaulagain, MD, FACP  
Cleveland Clinic Florida

Ana Rosa Espinosa, DNP, MBA, RN, OCN  
Memorial Cancer Institute

Terry Gruchow, PA-C, MHS  
Moffitt Cancer Center

Jessica McMillan DNP, FNP, ARNP-BC  
Mayo Clinic Florida
BASIC PRINCIPLES OF CANCER MANAGEMENT
7:30 am – 8:00 am

Objectives:
1. Define the purposes of cancer therapy
2. Describe the differences among chemotherapy, hormonal therapy, immunotherapy and kinase inhibitors
3. Have a basic understanding of the different drug classifications of chemotherapy, the different types of hormonal therapy and the many targets that therapies affect
4. Have a basic understanding for common toxicities for cancer treatments
5. Define available resources for drug indications, dosing and adverse effects profile

Winston Tan, MD, FACP
Associate Professor of Medicine
Vice Chair Hematology/Oncology for Education
Program Director Hematology/Oncology Fellowship
Chair Cancer Survivorship Program
Mayo Clinic Florida

CLINICAL PEARLS FOR THE NEW ADVANCED PRACTICIONER
8:00 am – 8:45 am

Objectives:
1. Review the biology and pathology of neoplastic diseases
2. Discuss cancer therapies
3. Correlate review of systems and implications to physical examination
4. Review potential side effects/toxicities of treatment therapies and effects

Jessica McMillan, DNP, FNP, ARNP-BC
Mayo Clinic Florida

BIOGRAPHY: Dr. Jessica McMillan is an Advanced Registered Nurse Practitioner at Mayo Clinic Florida in the Division of Hematology/Oncology. She has over 19 years of experience as a leader, educator and patient care advocate. She also works for Brooks Rehabilitation Hospital caring for patients multiple disabilities incurred by motor vehicle accidents, traumatic brain injuries, spinal cord injuries, and an array of other debilitating illnesses that require rehabilitation and care. In addition to working as a NP at Mayo Clinic and Brooks Rehabilitation Hospital, she continues to teach for University of North Florida, empowering new graduate nurses to provide patients with care, compassion and expert care always putting the needs of the patient first. She obtained her Nurse Practitioner Certificate at University of North Florida and is expecting to graduate with her Doctorate of Nursing Practice, with a sub-speciality of Palliative Care on July 24, 2015. She transitioned from caring to patients in the Intensive Care Unit to Oncology 8 years ago because she wanted to develop relationships with her patients and have a positive impact on their lives as they dealt with life limiting illness in the oncologic setting.
PHARMACOLOGY 101
MECHANISM AND TARGETS IN MEDICAL ONCOLOGY
8:45 am – 9:15 am

Objectives:
1. Define the purposes of cancer therapy
2. Describe the differences among current cancer treatments
3. Have a basic understanding of the different drug classifications of chemotherapy, the different types of hormonal therapy and the many targets that therapies affect.
4. Have a basic understanding for common toxicities for cancer treatments
5. Define available resources for drug indications, dosing and adverse effects profile

Lindsay Williamson, ARNP, MSN, AOCNP
Florida Cancer Specialists

BIOGRAPHY: Lindsay Williamson is board certified as an Advanced Oncology Certified Nurse Practitioner as well as an Adult Nurse Practitioner. She received her BSN at West Chester University in West Chester, Pennsylvania and her MSN at La Salle University in Philadelphia, Pennsylvania. Lindsay has been an Oncology Nurse for 17 years with 9 of those years in the role of Nurse Practitioner. She has worked in a variety of settings including inpatient and outpatient as well as community based and academic based. Also, she has worked in a variety of roles including Oncology Staff Nurse, Infusion Nurse, and ARNP in an academic setting and community practice, Pharmaceutical Sales Representative and Clinical Operations Manager of the Lab Draw and Infusion areas at Moffitt Cancer Center. Lindsay is a member of the Advanced Practice Society for Hematology and Oncology and the Oncology Nursing Society.

RADIATION CORE KNOWLEDGE/COMPLICATIONS
9:15 am – 9:45 am

Objectives:
1. Discuss the definition of radiation therapy.
2. Describe the indications for radiation treatment.
3. Discuss potential side effects.
4. Walk through the process patients go through for treatment.

Kathrine Tzou, MD
Mayo Clinic Florida

BIOGRAPHY: Dr. Katherine Tzou is an Assistant Professor of Radiation Oncology at Mayo Clinic Florida. She specializes in radiation therapy for genitourinary cancers, gynecologic cancers, breast cancer, and skin cancer. Dr. Tzou completed her Radiation Oncology Residency in 2012, at the Mayo Clinic College of Medicine. In 2008, Dr. Tzou completed her Preliminary Internal Medicine Year at Fletcher Allen Health Care, University of Vermont. Dr. Tzou attended medical school at The Ohio State University College of Medicine. She serves as a panel member of the National Comprehensive Cancer Network Testicular Cancer Guidelines Committee, chair of the Mayo Clinic Florida Radiation Oncology Research Executive Committee, Co-chair of the Mayo Clinic Genitourinary Disease Site Group, member of the American Society for Radiation Oncology (ASTRO) Membership Committee, and associate residency direction for Radiation Oncology at Mayo Clinic Florida.
SURGICAL APPROACH TO CANCER CARE
10:30 am – 11:00 am

Amit Merchea, MD
Mayo Clinic Florida

BIOGRAPHY: Dr. Amit Merchea accomplished his clinical fellowship, as well as his General Surgery Residency at Mayo School of Graduate Medical Education, Mayo Clinic College. In 2007, Dr. Merchea completed his medical degree at Saint Louis University School of Medicine. He is board certified in colon and rectal surgery, as well as general surgery by the American Board of Surgery. Dr. Merchea treats colon cancer, Crohn’s disease, rectal cancer, and ulcerative colitis. Dr. Merchea is interested in the research of colon and rectal cancer, ulcerative colitis, Crohn’s disease, benign diseases of the colon and rectum, diverticular disease, and presacral tumors.

PATHOLOGY AND HOW TO UNDERSTAND IT
11:00 am – 11:45 am

Objectives:
1. To familiarize the participant with pathology as a discipline of medicine.
2. To highlight the role of pathologists in understanding the fundamental concepts of human diseases.
3. To demonstrate the contributions of pathologists in cancer care and oncology practice.

Shahla Masood, MD
Professor and Chair, Department of Pathology
University of Florida College of Medicine – Jacksonville
Medical Director, UF Health Breast Center
Chief of Pathology and Laboratory Medicine, UF Health Jacksonville

BIOGRAPHY: Dr. Shahla Masood is a Persian born physician, who currently holds the positions of Professor and Chair of the Department of Pathology at University of Florida College of Medicine – Jacksonville and Chief of Pathology and Laboratory Medicine at UF Health Jacksonville. She is also the Director of the Cytopathology and Breast Pathology Fellowship Training Program. In addition, Dr. Masood is the Medical Director of UF Health Breast Center. An internationally recognized expert in breast cancer diagnosis and prognosis, Dr. Masood has fostered the concept of an integrated multidisciplinary approach in breast cancer care, research, and education. She is the founder and Editor-in-Chief of The Breast Journal, the founder and past president of the “International Society of Breast Pathology,” the Director of the “Annual Multidisciplinary Symposium on Breast Disease”, and “The Breast Cancer Public Forum”. Dr. Masood is heavily involved in the study of minimally invasive procedures such as fine needle aspiration biopsy and ductal lavage in providing diagnostic and prognostic information in high risk and breast cancer patients. She defined the cytomorphology of high-risk proliferative breast disease in the early 1990s and has pioneered the concept of cytomorphology as a breast cancer predictor.

Dr. Masood is the author of several textbooks, book chapters, and numerous publications. She is a frequent speaker at national and international symposiums and consensus meetings. She is also a member of the board of trustees of several prestigious scientific societies and organizations at local, regional, national and international levels.

Dr. Masood has received numerous awards and recognition for her scientific work, her contribution to advancing global breast health education and her efforts to improve the quality of breast health care. She is the recipient of “The 2010 Breast Health Global Initiative Award,” “Courage to Teach Award” from National Accreditation Council for Graduate Medical Education, and Florida Times Union “Eve Award,” to name a few. She has been named as one of the Top Doctors in America, Top Doctors in Cancer and one of the 20 Top Most Influential Professors in Oncology at an international level. In 2015, Dr. Masood was honored in Rome, Italy by Susan G. Komen Italia, a partnership between Susan. G. Komen and the Catholic University in Rome for her widespread contributions to breast cancer advocacy, and initiation of the Italian “Race for the Cure” in 2000. Dr. Masood is a patient advocate, a partner in community affairs and an accomplished artist and gourmet chef. She is the mother of two accomplished physicians, Dr. Ali Kasraeian, urologist, and Dr. Sina Kasraeian, orthopedic surgeon.
HEMATOLOGIC MALIGNANCIES: APPROACH TO UNDERSTANDING PATHOGENESIS AND TREATMENT
11:45 am – 12:30 pm

Objectives:
1. To familiarize with malignant hematology pharmacology.
2. To learn common indications and usage of malignant hematology anticancer drugs.
3. To understand side effects of malignant hematology anticancer drugs.

Chakra Chaulagain, MD, FACP
Cleveland Clinic Florida

BIOGRAPHY: Dr. Chakra Chaulagain completed clinical and research fellowship in Hematology and Oncology at Tufts University, New England Medical Center in Boston, MA with emphasis in malignant hematology/bone marrow transplant. He completed Internal Medicine residency at John H. Stroger Jr. Hospital of Cook County/Rush University in Chicago, IL. Dr. Chaulagain attended medical school at Tribhuvan University institute of Medicine in Kathmandu, Nepal. Dr. Chaulagain is board certified in Internal Medicine, Medical Oncology, and Hematology. He is extensively published and researched in the area of malignant hematology and plasma cell diseases. His areas of expertise include multiple myeloma and AL amyloidosis.

Dr. Chaulagain is a member of the Florida Society of Clinical Oncology, serving on the Board of Directors and the Membership and Program Committees. He is also the fellow of American College of Physicians and member of ASH and ASCO. He has been working as a staff physician in Cleveland clinic since 2014.

HOW DO WE BEST LEARN?
1:00 pm – 1:30 pm

Objectives:
1. Discuss and review the principles of learning
2. Define the basis of learning that is best for individuals
3. Empower learners to be teachers in their practices

Winston Tan, MD, FACP
Associate Professor of Medicine
Vice Chair Hematology/Oncology for Education
Program Director Hematology/Oncology Fellowship
Chair Cancer Survivorship Program
Mayo Clinic Florida

ONCOLOGIC EMERGENCIES & SYMPTOM MANAGEMENT
1:30 pm – 2:00 pm

Objectives:
1. To identify and recognize Oncologic Emergencies in cancer patients
2. To learn and know how to implement effective treatment options
3. To identify and recognize Oncologic Urgencies with implementation of treatment regimens

Terry Gruchow, PA-C, MHS
Moffitt Cancer Center
CLINICAL TRIALS
2:00 pm – 2:30 pm

Objectives:
1. Discuss the definition of clinical trials
2. Describe the types, regulations, design, and randomization of clinical trials
3. Discuss data management and analysis of clinical trials

Cheryl Habaue, RN, MSN, CCRP
Memorial Healthcare Systems

BIOGRAPHY: Cheryl Habaue is the Manager of Pediatric and Adult Oncology Research at Memorial Healthcare System in Hollywood, FL. She received her BSN from Mount Mercy College in Cedar Rapids, Iowa and MSN from Chamberlain College of Nursing. She has been in research for the past 5 years working on studies related to all cancers including but not limited to Lung, Breast, GI, GYN, GBM, Leukemia, Multiple Myeloma, Lymphoma, Head and Neck, as well as Sarcomas and Melanomas.

BASICS OF BILLING AND CODING
2:30 pm – 3:00 pm

Objectives:
1. Discuss basics of coding and billing
2. Describe the CCI/MUE initiative
3. Outline the Compendia and Journals of off-label coverage

Melisa Chandler
Director of Revenue Cycle, Corporate Office
Florida Cancer Specialists

BIOGRAPHY: As Director of Revenue Cycle, Melisa Chandler is responsible for providing leadership and direction to the Florida Cancer Specialists’ business office. In this role, she supports FCS through accurate billing, timely collections, and precise payment posting, while delivering a positive patient experience. Since joining FCS in 2010, she has held several finance-related positions of increasing responsibility. Originally from Anderson, Indiana, Melisa has 17+ years of management experience, 12 years in the medical field and is Six Sigma Green Belt certified.

LESSONS LEARNED
3:00 pm – 3:30 pm

Objectives:
1. Elaborate and summarize topics learned
2. Describe and illustrate how topics learned can be used
3. Establish and prepare a framework for continuous learning for the learner

Winston Tan, MD, FACP
Associate Professor of Medicine
Vice Chair Hematology/Oncology for Education
Program Director Hematology/Oncology Fellowship
Chair Cancer Survivorship Program
Mayo Clinic Florida

(Current as of March 5, 2018)
10th ANNUAL GREAT STRIDES TOGETHER with RAPID INTEGRATION COURSE
21st Century Oncology Developments for the APP/RN Physician Teams

March 9 & 10, 2018

ACCREDITATION STATEMENTS

The Leukemia & Lymphoma Society
Approval for nurses has been obtained by the Southern Florida Chapter of The Leukemia & Lymphoma Society under provider number 50-12996 (Expiration Date: 10/31/2018) to award up to 13.0 contact hours through the Florida Board of Nursing.

This document must be retained by the licensee for a period of four years after the course ends. Do not send to the Florida Board of Nursing.

The Florida Society of Clinical Oncology maintains responsibility for this program.

American Academy of Physician Assistants
This program has been reviewed and is approved for a maximum of 13.0 hours of AAPA Category 1 CME credit by the Physician Assistant Review Panel. Physician assistants should claim only those hours actually spent participating in the CME activity.

This program was planned in accordance with AAPA's CME Standards for Live Programs and for Commercial Support of Live Programs.
Faculty participating in these programs are expected to disclose to the audience any real or apparent relationships with industry that may have a direct bearing on the subject matter of the program.

Twitter: @FLASCO_ORG
The Florida Society of Clinical Oncology

FLASCO was formed as a statewide 501(c)(3) nonprofit organization committed to facilitating and promoting multidisciplinary efforts to improve patient care in Florida. FLASCO continues to make strides in promoting excellence in care of patients afflicted with cancer and hematologic disorders and leads efforts to respond to policies and legislation that threaten to compromise patient access to quality cancer care. FLASCO is gaining momentum as more professionals use us as the catalyst to develop partnerships, share knowledge, and stand together to demonstrate strength and determination to move forward in the battle against cancer.

FLASCO consists of over 1,900 members that include physicians and their supporting staff, allied healthcare, and industry representatives that represent the oncology professionals of Florida. FLASCO will continue to be recognized as a nationally respected state professional society as we stand together as “the Voice of Oncology in Florida”.

Moffitt Cancer Center

The Moffitt Medical Group (MMG) is Florida’s largest multi-disciplinary medical group practice that is dedicated to cancer care. The MMG, based at Moffitt Cancer Center, also provides services at other hospitals and clinics throughout the state of Florida and beyond. The MMG consists of 377 oncology specialists, including 221 board-certified physicians and 156 advanced practice professionals, as well as other staff who specialize in nearly 30 cancer programs and services. Our specialty-trained physicians are exclusively focused on cancer diagnosis, treatment and prevention. The MMG physician team includes cancer surgeons, medical oncologists, radiation oncologists, radiologists, pathologists and more, along with experts in cancer genomics and cardio-oncology.

Using a patient-centered, multi-specialty, team-based approach, MMG physicians blend clinical excellence with compassion to ensure that patients and their families feel connected to the team. MMG’s superior standing is underscored by the following distinctions:

- The development of clinical care Pathways, a unique approach to defining standards of cancer care, ensures that every patient receives the highest possible quality of care.
- MMG physicians participate in the National Comprehensive Care Network’s (NCCN’s) development of guidelines.
- Our National Cancer Institute (NCI) designation as a Comprehensive Cancer Center reflects the MMG commitment to clinical and academic excellence.
- MMG experts train the most promising future oncology physicians and advanced practice professionals.
- Many MMG physicians are leaders in their field who perform innovative, sometimes ground-breaking, research and clinical trials, which often exist exclusively at Moffitt Cancer Center; clinical trials provide unique opportunities for patients to receive the most advanced treatments with the potential to improve the national standard of cancer care.

The academic nature of the practice, coupled with the determination to treat every patient in accordance with the best available medical evidence, translates into superior quality and better outcomes, offering the best chance for beating cancer.
