First Annual Controversies in Breast Cancer Management

April 18-19, 2020 | Hyatt Regency Clearwater Beach

COURSE DIRECTORS Avan Armaghani, MD, Brian Czerniecki, MD, Heather Han, MD, Loretta Loftus, MD

COURSE DESCRIPTION Controversies in Breast Cancer Management is a two day interactive CME program aimed at highlighting controversial and challenging topics in the multidisciplinary management of early, locally advanced and metastatic ER positive, HER2 positive, and triple negative breast cancer. There will also be discussion on the future treatment of breast cancer therapies including the role of genomic testing in devising a personalized treatment care plan for patients and the emerging role of immunotherapy in breast cancer. Opportunity to submit a case presentation will be available.

TARGET AUDIENCE Medical oncologists, surgeons, radiation oncologists, pharmacists, physician assistants, nurse practitioners, hematology/oncology fellows, internal medicine residents, oncology nurses, medical and pharmacy students

CONFERENCE CONTACT Janet.Young@Moffitt.org

This course is approved for AMA PRA Category 1 Credits™
